

Collaboration. Dedication. Realisation.

## ENVIRONMENTAL POLICY

Signature Project Management (Signature PM or SPM) is committed to minimising the impact of our activities on the environment. We have established environmental objectives and targets that can be controlled at our site that reduce significant adverse impacts.

The organisation recognises the importance of caring for our environment and that the principles of environmental sustainability will, where appropriate, be implemented in our operations.

To protect and care for the environment in which we operate, Signature PM will pursue the following:

- Comply with all relevant environmental legislation that can be controlled by SPM.
- In managing our services, we will, where relevant, identify, assess and control environmental risk factors.
- Identify competencies and develop procedures to achieve Environmental Policy objectives and ensure all personnel are aware of such competencies and procedures.
- Minimise greenhouse gas emissions where possible, including the efficient use of energy in the office.
- Communicate with our personnel and other interested parties our environmental objectives and targets.

A large, stylized handwritten signature in black ink, appearing to be 'DG', is written over a horizontal line.

**Dean Gavrilovic**  
Director, Signature Project Management
