

| PROJECT PROFILE |

19 . 21 Prospect Street, Rosehill

The Story

Prospect St is a 51 unit residential development required by 16 MC Property Pty Ltd and includes full development management and project management services, including assisting the client in finding the site with multiple feasibility reports, tendering of the construction and engaged the sales team.

The main challenge with this property was that it was purchased with an ineffective DA, so it required some re-designing to make the property more appealing, cost effective and most importantly profitable.

Creating The Vision

Our teams of highly skilled, dedicated professionals bring the broadest range of experience and expertise to the table. Together, we aim to deliver the highest standards of quality and service across all stages - from planning, to design and delivery.

By developing and streamlining systems that monitor project quality and WHS throughout the entire process, we can provide significant savings of time, money and stress. At the same time, these systems contribute to greater efficiency, effectiveness and success of every project.
