

Collaboration. Dedication. Realisation.

## ENVIRONMENTAL POLICY

Signature Project Management (Signature PM or SPM) is an organisation established to provide our clients with professional, specialised project management services in feasibility studies, property development, new construction, refurbishment, fit out and other associated works, so as to achieve a sustained competitive advantage and significant business improvements. SPM will provide a team of specialised staff who will work with our client in a collaborative manner to deliver projects to meet the requirements set out by the client brief.

Signature PM is committed to minimising the impact of our activities on the environment. We have established environmental objectives and targets that can be controlled at our site that reduce significant adverse impacts.

The organisation recognises the importance of caring for our environment and that the principles of environmental sustainability will, where appropriate, be implemented in our operations.

To protect and care for the environment in which we operate, Signature PM will pursue the following:

- Comply with all relevant environmental legislation that can be controlled by SPM.
- In managing our services, we will, where relevant, identify, assess and control environmental risk factors.
- Identify competencies and develop procedures to achieve Environmental Policy objectives and ensure all personnel are aware of such competencies and procedures.
- Efficient use of energy across the organisation.
- Communicate with our personnel and other interested parties our environmental objectives and targets.
- A commitment to continual improvement of our Integrated Management System, encompassing Quality, Environmental and Work, Health & Safety.
